

Damián Piazza

Email: damipiazza11@gmail.com | LinkedIn: www.linkedin.com/damian-piazza | Github

Professional Profile

Systems Engineering student (3rd year) with a solid foundation in the software development lifecycle and a strong inclination toward Back-end development, emphasizing functional analysis and business logic. Experienced in relational database modeling (SQL), with strong self-learning abilities that allow rapid adaptation to new environments and effective problem-solving. Seeking an internship to gain hands-on experience, contribute to software projects, and build a long-term professional path in IT.

Work Experience

Cripto UTN Project – LINA (August 2025 – Present)

- Functional Analysis
- Python Development

UTN Conecta Project – LINA (June 2024 – August 2025)

- React Native Mobile Development
- GUI Design in Figma
- Agile Workflow – Jira

Education

UTN – Facultad Regional La Plata

3rd Year Systems Engineering Student (2023–2025)
